DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1,3,5-13 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Mawatori et al 5614568 & Hozumi et al 5374600.

Although the "such as" is no longer , the compounds of the instant invention are absent from claim 1, & "compounds exhibiting pest growth control activity" area seen by examiner as antimicrobials, seen in both references, and , as antimicrobial compositions of extended duration of effect, meeting the instant claims.

Applicant's argued for advantages are those presented by Hozumi, as previously addressed in the prior rejection; sustained release is an object of Hozumi's.

Note also, the possible confusion, as there is no "and" before carboxylic acid esters, at line 4 of claim 1, & claim 8, thus, a chemical agent of either chloronicotinyl, pyrethroid, --miticides- and (D) at least one ---filler, can be construed to be part of the (B) group of compounds.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1615

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
